The Progressive Fish-Culturist 54:281–283, 1992

INDEX TO VOLUME 54

This index is subdivided into Author and Subject categories. Within each, numbers are the first pages of respective articles.

Author Index

An asterisk (*) following the page number denotes book review; an e denotes errata.

Allred, A. 157

Banks, J. L. 137

Subject Index

Keywords

Editorial
Book Reviews
Crustaceans and Mollusks: General
Drugs and Chemicals: Methods; Toxicity
Fish Health: Disease; Methods
Genetics: Genetic variation; Methods
Hatchery Management: Marking techniques; Pond culture; Production methods; Rearing facilities; Transportation methods
Nutrition: Diets; Feeding methods; Requirements and additives
Physiology: Biochemistry; Environment; Methods
Reproduction: Brood stock; Egg handling and incubation; Spawning
Water: Methods; Quality; Treatment

Editorial

New Manuscript Submission Procedures 213

Book Reviews

Aquaculture Management 64
Coastal Aquacultural Engineering 278
Pond Fisheries in China 278
Production of Aquatic Animals 64
Scallop Farming 136
Water Quality in Ponds for Aquaculture 212

Crustaceans and Molluscs

General
- Bait preference and trapability, crayfish 250
- Geothermal saline spring water, crustaceans 28
- Hypodermal and hematopoietic necrosis virus, blue shrimp 265
- Sodium chloride, improved survival of Australian crayfish 118

Drugs and Chemicals

Methods
- Iodine concentration, decline during egg water hardening 81
- Sedation with 2-phenoxyethanol, grass and silver carp 263
- Sodium chloride, dietary effects, red drum 220
- Sodium chloride, improved survival of Australian crayfish 118
- Sodium chloride, stress mitigation, striped bass 228
- Tricaine (MS-222), stress mitigation, striped bass 228
- Tricaine (MS-222), segregating striped bass with uninflated gas bladders 133

Toxicity
- Hypertonic salt solution, effects on coho salmon embryos 97

Fish Health

Disease
- Hypodermal and hematopoietic necrosis virus, blue shrimp 265

Methods
- Determining hematocrits with a microcentrifuge 111
- Iodine concentration, decline during egg water hardening 81

Genetics

Genetic variation
- Precocious sexual development, chinook salmon 25

Methods
- Gene marker identification, electrophoresis 246

Hatchery Management

Marking techniques
- Electronic hot-branding device 99
- Passive integrated transponder tagging, channel catfish 125
- Visible implant tags, retention in lake trout 163

Pond culture
- Polyculture, channel catfish and tilapia in cages 108
- Quatrefoil light trap, modified 202
- Red drum fingerling survival, freshwater ponds 215
- Shelter, influence on channel catfish production 21
- Zooplankton harvester, collecting rotifers 267

Production methods
- Channel catfish performance, second- and third-year 171
- Culture system, evaluating diets for larval fish 270
- Day length and cleaning regimen, Atlantic salmon 69
- Gulf of Mexico sturgeon, laboratory reared 59
- Intensive culture, paddlefish 240
- Intensive–extensive culture, muskellunge fingerlings 243
- Light, temperature effects on walleye production 49
- Linear fish growth models 255
- Paddlefish, maintenance as experimental animals 121
- Rearing density and loading effects, coho salmon 137
- Uninflated gas bladders, detecting in striped bass 133

Rearing facilities
- Environmental control chamber for holding fish 132
- Light control circuit, sunrise–sunset simulation 127
- Radon gas, problem in hatcheries with aeration columns 57

Temperature and environmental controller, computerized 130
Vertical raceways for rearing juvenile salmon 105
Transportation methods
Oxygen diffusers, comparative efficacy in hauling tanks 35
Stress mitigation, sodium chloride and anesthetic 228

Nutrition

Diets
Seafood processing wastes in channel catfish diets 7
Dietary protein, sunfish hybrids fed isocaloric diets 234
Dietary protein levels, ammonia excretion in walleyes 45
Dietary protein levels, cage-reared channel catfish 92
Dietary protein requirements, juvenile sunshine bass 148
Feeding methods
Culture system, evaluating diets for larval fish 270
Feeding frequency, cage-reared channel catfish 92
Feeding practices, effect on channel catfish fingerlings 21
Water content at first feeding, Atlantic salmon fry 181
Requirements and additives
Aflatoxin B_1 reduction in feeds with bentonite 157
Dietary sodium chloride, effects on red drum 220

Physiology

Biochemistry
Ammonia excretion, walleyes fed dry diets 45
Estradiol, sex determination in European eels 88
Physiological changes, salmon smoltification 174
Water content at first feeding, Atlantic salmon fry 181
Environment
Hypertonic salt solution, effects on coho salmon embryos 97
Red drum fingerling survival, freshwater ponds 215
Temperature and light, intensively reared walleyes 49
Temperature variation, effects on brook trout eggs 1
Methods
Determining hematocrits with a microcentrifuge 111
Environmental control chamber for holding fish 132
Fish quality assessment methods, striped bass 41
Stress mitigation, sodium chloride and anesthetic 228

Reproduction

Brood stock
Domestic brood stock, striped bass 184
Ovulation prediction, striped bass 189
Precocious sexual development, chinook salmon 25
Social grouping, effect on sex determination, eels 88
Egg handling and incubation
Chemical separation of egg masses, channel catfish 73
Germinal vesicle, methods for viewing 115
Incubation system, salmonid environmental studies 259
Temperature variation effects, brook trout eggs 1
Water addition and rinsing eggs, delay in salmonids 14
Spawning
Egg-fertilization enhancement, buffered saline solutions 206
Sedation with 2-phenoxyethanol, grass and silver carp 263

Water

Methods
Hatchery water-heating system, heat pump 208
Oxygen transfer efficiency, Aquatector 63
Radon gas, problem in hatcheries with aeration columns 57
Quality
Copper contamination in water, from chilling units 61
Treatment
Aeration tower for aquaculture 274
Oxygen diffusers, comparative efficacy 35
Ozone oxidants, removal with sodium thiosulfate 54
Recirculation systems, effect of *Yucca shidigera* extracts 196
